#### The Workingmen's Assembly. The Workingmen's Assembly met at Beck's Ball last evening, Mr. N. S. Plass presiding, and

John Christian secretary. THE PAPER HANGERS AND THE POST. Mr. Clarkson reported that the committee appointed at the last meeting had visited the paper hangers union, and explained article seven of the address referring to the action of the de nocratic executive committee.

Mr. Plass remarked that the paper hangers had ignored the advice of the assembly by a tvertising in the Post, and the committee on orgabization proposed to give them "Hail Columbia" therefor.

Mr. Hamilton stated that a committee of infigential citizens had promised to accompany blm to the Secretary of the Navy, and respect an investigation of the chief engineer of the Washington yard, in employing mechanics at laborer's wages.

ELECTION OF PRESIDENT. The office of president having become vacant by the resignation of Mr. Raiston, the assembly preceeded to till the vacancy, and Capt. E. B. Robinson was nominated and unanimously elected. Capt, Robinson on taking the chair re turned his thanks, and said that he would have much preferred the selection of a representathe from some other union than the typographical, but he never shirked any responsibility. He had an abiding faith in the ultimate trioroph of the cause, and urged that they be true to their interests, and repudiate the political demagorne. no matter to which party he belongs. He be fleved in the economical administration of the government, but not in the reduction of the compensation of some to enhance the salaries of others-not in reducing the pay of policemen. for the purpose of increasing the salary of an adventurer known as Mr. Riddle. He urged that the true sentiment which should prevail among the workingmen was lovalty to their in terests, untrammeted by party shackles. PREACHERS, POLICEMEN AND TRAMPS.

Mr. Hamilton offered a resolution reciting that as the Rev. A. F. Mason, pastor of Calvary Baptist church, had delivered an able and Christian-like sermon upon the terrible sufferings and hardships of the laboring classes of the District, especially the car drivers, conductors, and policemen, defending them and their cause, and criticising those in power for their treatment; and in so doing should receive and is deserving the hearty approval of the workingmen, thanks are tendered him by the Assembly for his manly defence of their cause, and hope that his efforts will bring forth good Mr. Meany objected to the word policemen

being used, and said that regiments of tramps were now marching over the land, and no word was spoken in their defence by press or clergy. As for the police, go out between 12 and 3 o'clk at night, anywhere in the city, and you won't find them. Mr. Plass .- You would think the city full of

them if you got pulled in.

Mr. Bell remarked that so seldom is anything said in favor of labor by the clergy that such an oceasion should not go unnoticed. The resolution was adopted, Mr. Meany and another member voting in the negative. Mr. Robinson said that he had but little faith

in preachers generally, but was a great admirer of the Christian religion, for its founder was a workingman, the son of Joseph, the carpenter; but this fact is seldom noticed by the clergy. It was a most extraordinary thing for a clergy man to espouse the cause of labor. PROPOSED LABOR CONGRESS.

The letter calling upon labor unions throughout the country to send delegates to a labor congress, which it is proposed to hold in Washington next year, was taken up and referred for revision to Messis, Armstrong, Robinson and Ramsey, with instructions to report at the next

ANOTHER MEETING OF SUFFRAGISTS LAST NIGHT.-A meeting of advocates of popular suffrage in this District was held last night, Justice A. C. Richards presiding, for the purpose of hearing the report of the committee to prepare platform, &c. Mr. Appleton P. Clark read the report of the committee, which is the same as that submitted at the meeting one week ago and the substance published in The STAR, with the exception of an amended clause, which reads as follows: "Asserting as a fact that a majority of the people of the District are in favor of the right of suffrage, we offer to demonstrate the truth of said assertion by the only practical and fair mode, viz: by obtaining the names of each and every male citizen in favor of, as well as those opposed to said measure, so that all shall have an equal voice, by a primary election, which we propose shall be held at a proper time, under propose shall be held at a proper time, under proper conditions, and in the control of which the opponents of the measure shall have an equal voice. For the purpose of carrying out these views, it is recommended that auxiliary associations be organized in each of the legislative districts, which, under the direction of the central organization, shall circulate petitions for and against said measure, and conduct such primary elections and render such other aid as the objects to be attained may demand." The chair questioned the propriety of canvassing to obtain the names of those opposed to suffrage. What is more to the purpose is to get these in its favor. O. S. B. Wall said there was no doubt but that a very large majority of our citizens are in favor of a suffrage government. Mr. Swaggart moved to strike out of the report all that portion which looked to the canvassing for the negative part of the question; adopted, and the report of the com-mittee as amended was adopted. The printing of blank petitions was ordered, and the chair appointed Messis. A. P. Clark and Cornellus Swaggart to draw up the petition and have it printed. The chair was authorized to appoint three persons in each legislative district to circulate the papers for names.

THE "RURAL LABOR ASSOCIATION."-Petitions to Congress are in circulation in this city, and receiving many signatures, which set forth the distressed condition of many of the workingmen in the large cities of the country, proposes for their relief the procuring of permanent employment for them, and say that "this can best be done by a co-operative association in the interest of rural labor, which in its corporate capacity may buy a large tract of fertile land, and thus afford to the surplus labor of our cities a field for remunerative employment. A poor laborer has not the necessary means to procure land, build a house, and provide for his suste-nance until the products of the soil yield a suf-ficient support for himself and his family. To accomplish this-to furnish the laborer with a sufficient area of fertile land, house and the necessary provisions at this settlement-is the object of the Rural Labor Association of the City of Washington. It requires, however, large means to buy land, erect houses, and procure the necessary provisions for the poor laborer, who thus will be relieved by said associatio. The individual contributions of its members and shareholders are not sufficient to speedily realize the benefits contemplated by its organization. It is therefore the prayer of the undersigned, tax-payers and business men of the city of Washington, that material aid, in the shape of a loan, should be given to said association to the amount of a \$150,000, issued in bonds of the city of Washington, by the proper authorities, and we hereby petition the Congress of the United States to grant a charter to the Rural Labor Association of the City of Washington, and provide in said charter, in a proper section, that the Commissioners of the District of Columbia be authorized to issue bonds of the city of Washington to the amount of \$150,000, bearing interest at the rate of five per cent, per annum, redeemable within twenty-five years, which bonds shall be delivered to the association under such rules and regulations as may be approved by the honorable committee of the two houses of Congress on the District of Columbia; provided, however, that the entire tract of land purchased by the association and the improvements made thereon, shall be held as security by the Commissioners of the District of Columbia until the bonds and the interest accrued thereon shall have been redeemed and paid by said association.'

A PUBLIC MEETING OF THE LABOR EXCHANGE was held at Talmadge hall last evening. M. G. Emery, president, sta'ed that the meeting was called to secure aid for the exchange and create a more extended interest in its workings. Mr. L. S. Emery, the secretary, read extracts from the printed report of the exchange. He introduced Judge MacArthur, the speaker of the even ng. Mr. MacArthur delivered a short but pointed speech. He made a comparison between the compulsory charity of England, which makes beggars by birthright and the voluntary charity of this country, which graduates the \$750. W. P. Young vs. T. J. Bicksler; replevin tramp. Both had great faults, but voluntary charity the fewer. He then compared voluntary charity with the system inaugurated by the labor exchange. This system, he was of the opinion, got rid of most of the faults of voluntary charity proper, and had so few faults that the project should be generously supported and its working extended. It got over the fault of able-bodied pauperism. Mr. John T. Mitchell also made a speech. He said the making of seed bags at the exchange was the only kind of manufacture in the city that brought money nto the District. He wound up by an appeal to the few in the hall to become members of the exchange at \$3 a year. A number of people subscribed, and the meeting adjourned, secretary Thompson, who was expected to addres the meeting, in connection with Judge MacArthur, was detained from the city by accident to railroad train, and did not reach here till too late for the meeting.

THE SUSPENDED GERMAN-AMERICAN BANKS.-There are to-day numerous damaging rumors as to the suspended national bank and the conduct of some of the officers and directors.

One is to the effect that many of the stockholders saw the crash coming and transferred their stock in some instances to irresponsible parties, and that they thereby reduced their obligations: another is, that after knowing the condition of the bank the officers accepted deposits. The friends of the officers assert that these rumors are groundless, and that they will be able to show the falsity of such statements when the opportunity is afforded them.

The directors of the Savings bank are awaiting the statement of Mr. S. L. Mattingly, the eashier, and will probably hold a meeting this afternoon. Some of the depositors who have kept their accounts with the Savings bank, have ascertained that their money now appears to be in the National bank, and therefore they have net as good a show for a dividend, for in the avings bank the stockholders are liable for the whole amount of deposits, and in the National bank the stockholders are liable for only to the amount of their stock it is reported that a prominent avenue merchant several weeks ago became suspicious of the National Bank, and sold his stock, amounting to several thousand dollars, but failed to have it transferred on the books, and therefore will be called on with other stockholders to make up the deficit in proportion to the amount

The several branches of this work are entrusted as heretofere to standing or special committees. but these committees are no longer integral portions of the board. They are appointed by and responsible to the board, and the board is represented upon each committee by at least one member. This separation of the committee from the board will tend, it is held, to render each more efficient and to secure a more satis factory administration, both to matters spiritual and material. The purpose of the association that its affairs shall be conducted upon strict Christian principles is evidenced by the character of the above mentioned gentlemen who were last evening elected upon its board of man-

BOYS' CLOTHING.-Since Messrs. B. Robinson Co. opened their boys' clothing house, no dis play of boys and children's clothing at all equal to the exhibition now made has ever been at tempted. The demand has always been fully met; or perhaps three times as many garments for youths, boys and children's wear as any other store, is a fact sufficiently significant in itself to explain the reason why they control and lead the boys' clothing trade. When a suit for play, a suit for school, or dress suit can be selected there at twenty-five per cent, saved to the buyer, that circumstance is the wonderfal magnet that attracts whole communities. The question is often asked, how can it be possible that Messrs. Robinson & Co., 909 Pennsylvania avenue, can sell such immense quantities of boys' clothing? The reason is easily given. Their inclination leads them to sell on small profits; next, their ability to buy cheap, with eash in hand; having always what the people demand; better goods at lower prices than their competitors; lower rent and light expenses, all combined to enable them to cater to the popular demand for goods at a living profit. With that they are satisfied, and the patronage extended them in the past is their guarantee that the public appreciate the fact.—Advt.

THE BIBLE IN THE SCHOOLS-A Peculiar Phas of the Question .- Some time since the school board of New Haven, Conn., voted to discontinue religious exercises in the public schools. This raised a whirlwind in the city, and at an election held several weeks ago a party in favor of the restoration of the Bible to the public schools, composed of Protestants and Catholics. triumphed, the latter fighting as manfully as the former for the restoration of religious exercises in the schools. Since then a plan has been pre pared and submitted to the school board which proposes two manuals to be used in the schools. one for the Protestants and the other for the Catholies, which its authors claim will be satisfactory to the great body of the friends of religion and of the public schools. The plan submitted to the board is signed by forty-one clergymen, including ex-President Woolsey, President Porter, Dr. Bacon, Dr. Harwood, five pastors of Catholic churches, one Universalist clergyman, the prominent Baptist and Methodist clergymen, many of the Congregational and Episcopal clergymen, and the pastor of the Yale College Church. The board has not yet acted

INGENIOUS SWINDLING.—The N. Y. Sun states that for several years a man named W. H. Hall has lived by ingeniously swindling New England railread companies. His plan is to go to the chief officers with a story of having been injured on their road. The hurt is always internal, and has prevented him from working, besides putting him to the expense for doctoring. He talks plausibly, presents forged affi-dayits in support of his claim, and usually is referred to the company's lawyer, who recom-mends the payment of \$300 to \$500 rather than defend a lawsuit. Exposure came of his careless use of aliases after he had fooled at least

five companies. A RICH JOCKEY .- Wm. Barrett, one of Mr. Pierre Lorillard's jockeys, is said to be the richest jockey in America, being worth over \$20,000, and there is but one richer jockey in the world, weighs 115 pounds, and is too heavy to ride. It has been ascertained that Barrett had been starving himself the season to keep down to the required weight, such being the custom of all jockeys. When they quit riding they become heavy very rapidly.

A negro woman in Kentucky recetly gave birth to a baby that weighed twenty-one pounds One feature of a great anti-Butler demonstration at Lowell, Saturday evening, was a battalion of more than a hundred voters, each of whom is more than seventy years old, who will carry a banner inscribed, "We have known Butler as man and boy for forty years, and shall

vote for Talbot." While on his way home from Tallahassee a negro named Andrew Wilson was run over at Bel-Air hill and killed. Four years ago his father was killed on the same spot in precisely the same manner; one of his brothers broke his neck last year while playing ball, and in 1873 another was killed by a fall.

TIRED OF LIFE. - Policeman Baxter, of the eorgetown precinct, yesterday afternoon found an old man named Ovid York lying on a vacant lot between Stoddard, Road, Washington and Congress streets, bleeding from a wound in the left arm inflicted by himself with intent at self-destruction, and took him to the station house, when Dr. D. J. Kelly was called in and rendered aid, after which his friends, living at 1024 25th street, in Washington, were notified, and he was sent to his home.
